

Accessibility find-and-fix, under your brand

We review your client's templates against WCAG 2.2 AA, fix the issues in theme code on staging, and prove every fix with a before/after report mapped to its issue ID. You sell it as your own.

What we do

Accessibility Review

In-house automated scans at desktop and mobile widths, then manual keyboard, VoiceOver, NVDA and 400% zoom testing. Each issue is mapped to the theme file that causes it, with a fixed price to fix it.

Code Remediation

Fixes in theme or template code on a duplicate theme, your branch or staging. Never the live store.

Verified report

A change log and before/after evidence for every issue ID: what changed, in which file, how we checked it.

How it fits your team

- ☐ Access by Shopify collaborator request (theme permissions only), a branch of your theme repository, or a WordPress staging login. Never a password.
- ☐ Pull requests on your branch, a duplicate theme, or a WordPress child theme or small plugin. Your release, always.
- ☐ Third-party apps flagged with options at the start, not discovered at the end.
- ☐ Checkout is Shopify-hosted on every plan. On non-Plus stores we report checkout issues to Shopify rather than fix them.

Partner prices: 20% below list

Package	List	Yours
Starter 3 templates, up to 5 fixes	\$1,750	\$1,400
Essentials 6 templates, up to 15 fixes	\$4,250	\$3,400
Standard 12 templates, up to 30 fixes	\$7,750	\$6,200
Fix Watch Monthly re-check against the post-fix baseline	\$295/mo	\$236/mo
Watch + Fix Monthly re-check plus up to 4 hours of fixes	\$795/mo	\$636/mo

Starter, Essentials and Standard are Review + Fix packages. Reviews are at list price (\$450, \$950 or \$1,500), credited in full toward Review + Fix within 30 days. We never quote your client.

White-label terms

- ☐ Unbranded reports and change logs, or your logo on them
- ☐ We sign your NDA and never contact your client unless you ask
- ☐ No selling to your client for 12 months after a project

Client already has an audit?

Forward it. We quote a fixed price within 2 business days, and the auditor or your team retests. If the agreed fixes fail the retest, you don't pay for them. Our first five partner firms, through December 18, 2026, also get three fixes on staging first, with no charge unless they go ahead.

What we never promise

Lawsuit dismissal, protection from future lawsuits or demand letters, or blanket legal compliance (ADA, Section 508, EAA, or any law). Our Accessibility Review isn't a certified audit, VPAT or ACR, and nothing we send is legal advice. No overlays, ever: we change the code.

Next step: tabstopstudio.com/contact to set up white-label terms, or send one client's audit for a quote.
